Present: Tyler Boutwell, Scott Stantial, Michael MacCannell

Agenda:

**1. Call to Order/Roll Call**

The meeting began at approximately 6:30 PM in the GBW building Board of Selectman conference room.

**2. Discuss New Findings**

Need to meet with people and start partnering – discussed how can we get experts to our meetings and provide input.

Need to map the town to have that info ready – might be funds from Covid that could be used to pay for mapping – is there money available?

Grant money is the key

Can we get ABB or Consolidated to actually help us to get started with seeking Grant money?

Possibility of Jeff McIver from Consolidated Communications to come to our next meeting

Idea brought up that Deerfield needs an electronic sign in a common spot to provide Town info – Transfer Station at the drive in point? Would need to work the channels to get funding etc. – Basic idea – get info out to the public.

Need to obtain a town map of where there is copper and where there is existing coax

**3. Review current contract with ABB**

**4. Closing questions/comments**

## **5. Schedule next meeting**

The committee decided to hold off scheduling the next meeting until it could ensure more members can attend.

The meeting adjourned at approximately 8 pm.
