

## Work Session 12/28/2015 Supervisors of the Checklist

Harriet Cady and Gloria Riel met at office and worked on getting all work finished.

In all we had to make out 700 forms and address almost that many envelopes and mail the same to all the voters who needed to update.

The State of New Hampshire requires this to be done at least every ten years and more often if necessary.

If we found or do find duplicate voters or someone has moved or some may be deceased, we need to update the records to the best of our ability.

Everything will be so much better with the upcoming elections in 2016.
